

Accident Investigation

Accidents don't just happen!
There are often underlying causes
Hence the need for our service

Beesafe offers a prompt and thorough professional accident investigation service. We can cover all types of accidents from minor to major fatalities.

A consultant will visit the scene of an accident within 6 hours, or immediately if there is a fatality, collecting witness statements and photographic evidence, followed by a detailed written report.

Our report will include recommendations for remedial action and advice on how to prevent a reoccurrence. We can work with you to put your management systems back in place.

We will also carry out all relevant notifications to the HSE as required under RIDDOR. We will also liaise closely with the HSE to support you and your staff during their investigation

Our consultants charge a basic daily fee depending on the complexity of the work undertaken. Ask for the basic fee scale. These fees are negotiable and are normally paid in advance as per contractual agreements.

With our extensive range of consultants, based across the UK we can provide you with expertise in most industry areas. Our consultants are registered with the relevant accrediting authority and between them they have many years experience in providing clients with professional consultancy services.

If required we can provide these services outside normal working hours

Our advisor will visit the scene within 6 hrs
The cost of the investigation depends upon
the depth of investigation required.
Fees start at £250 per day.
